

Planet Connecticut: A Middle School Curriculum to Improve Transportation and Clean the Environment through the Study of Global Warming & Climate Change

www.planetconnecticut.org

PLANET CONNECTICUT

A middle school environmental education program that teaches students in Connecticut about ecosystems and how their choices impact the environment. A service of the Connecticut Department of Transportation, the curriculum was developed to meet Connecticut Education Department Science Standards and was written by the Northeast Sustainable Energy Association (NESEA).

Writer/Designer: Chris Mason, NESEA

Illustrator: C. Michael Lewis
